

Area of Rectangles on a Grid - ANSWER KEY

Grade 3 | Finding area by counting unit squares and multiplying

Each small square is 1 square unit. Find the area of each shaded rectangle.

1.

Area = 30 square units
($6 \times 5 = 30$)

2.

Area = 20 square units
($4 \times 5 = 20$)

3.

Area = 4 square units
($2 \times 2 = 4$)

4.

Area = 9 square units
($3 \times 3 = 9$)

5.

Area = 16 square units
($8 \times 2 = 16$)

6.

Area = 12 square units
($6 \times 2 = 12$)
